THERMO-TRAP® PUTTY

Thermo-Trap Putty is a reusable putty material that is referred to as a heat sink. The putty keeps components protected and cooler much better than a traditional wet rag. When applied to the metal working surface, Thermo-Trap soaks up heat and reduces heat transfer to protect sensitive components. Apply to copper, steel, or other pipe surfaces before welding, brazing, or soldering to protect nearby sensitive controls or components. Thermo-Trap features antimicrobial chemistry to prevent mold growth on the putty so it can be reused up to 40 times!

PH-TREAT™ CONDENSATE NEUTRALIZERS

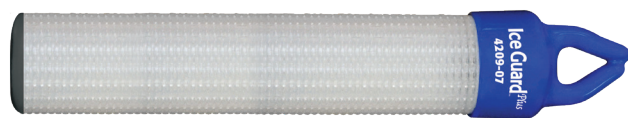

Nu-Calgon's pH-Treat neutralizers address acidic condensate produced by high efficiency furnaces, boilers and water heaters before it goes to drain. If left untreated, the condensate produced by these appliances can potentially harm the environment and drainage systems over time due to its low pH (typically 2 to 4). The line-up provides options based on cost of ownership, maximum install versatility, range for different system types, and whether there is an available drain nearby. The complete line-up includes throwaway canister, refillable, and tank designs for the various needs of the market.

- New refillable condensate neutralizers are most cost effective approach over the appliance's service life
- Refillable condensate neutralization tank with pump for applications that require neutralized condensate to be removed
- Low-profile commercial neutralization tank with several piping options for fast and versatile installation

ICE GUARD™ PLUS 4209-07

Ice Guard Plus contains advanced technology to dramatically reduce ice machine maintenance and cleaning. This technology utilizes the known properties of silver and copper, incorporated into a drop-in device. The device is placed directly into the recirculating water sump, providing treatment of the machine in one easy step.

- Drop-in ice machine protection
- Keeps ice machines cleaner longer
- Reduces ice machine maintenance
- Lasts three months

COMPLETE CARE MINI-SPLIT KIT

A complete kit designed specifically for servicing mini-splits and ductless systems! Each kit includes enough Nu-Calgon products to clean and treat up to four mini-splits. Cleaning mini-splits couldn't be any easier! Each kit includes:

- (2) Tri-Pow'r HD Aerosols
- (2) Gel Tabs Mini packs for condensate treatment
- Clean Guard maintenance bag
- Nu-Calgon bucket

QUICK SEAL REPAIR PATCH

Quick Seal Repair Patch is a UV light activated fiberglass reinforced self-adhesive repair patch. The fiberglass reinforced repair patch is made of polyester/plastic and is designed for quick, in-the-field repairs. It can be used on both cold or hot water as well as HVAC/R and plumbing applications, and bonds to all types of pipes.

Extremely durable, flexible and waterproof, Quick Seal Repair Patch is ideal for condensate pans, water pipes, duct repair, flue repair, and many other applications. It can be drilled, tapped, sanded or painted in less than an hour. The Quick Seal Repair Patch can be cut to size. The extra material can be repacked in its original resealable package. It is weather and UV resistant, and works within temperature ranges of -40°F to 390°F.

- 3"x 6" patch 4299-25
- 6"x 9" patch 4299-26
- 9"x 12" patch 4299-27

GEL TABS™ MINI 4185-95

Our traditional Get Tab formula made in the perfect compact size for hard to reach pans. Our new slim design fits perfectly in mini-splits and treats up to 1.5 tons with two tablets per package.

CLEAN CONNECT™ SYSTEM

Cal-Green 4x 4190-90

Alka-Brite Plus 4x 4120-90

Nu-Brite 4x 4291-90

Tri-Pow'r HD 4x 4371-90

Clean Connect Sprayer 4773-0

- Concentrate coil cleaners
- One concentrate quart = one gallon of traditional coil cleaner (4:1 dilution)
- Cleaner connecting – no more pouring or spilling
- Takes up less space on trucks and easier to carry on rooftops

GALLO GUN™

The Gallo Gun is a lightweight portable tool designed to blow out condensate drain lines instantly. Simply insert a Gallo Gun CO₂ cartridge into the Gallo Gun and with a press of the trigger, oil-free, food-grade air instantly clears the line. Revolutionary housing fits the standard 16g cartridge or the larger 20g cartridge for 25% more clearing power! Each unit comes equipped with a tapered fitting to work on 3/8in. – 3/4in. drain openings. The extremely light and flexible hose assembly maneuvers through tight openings, cabinets and coils. Cartridges are environmentally safe and recyclable.

Available cartridges from Nu-Calgon

4179-20: Mag20 (20 gram CO₂ cartridge)

4179-16: Mag16 (16 gram CO₂ cartridge)

Simply unscrew and flip the dual fit cartridge base 180 degrees to fit the 20 gram cartridge or the 16 gram cartridge!

HERE'S WHAT'S NU!

TURBO TANK SPRAYER

The Turbo Tank Rinsing Sprayer is a portable tool designed specifically for rinsing air cooled air conditioning coils with clean water after Nu-Calgon coil cleaner has been applied independently to the coil. The Turbo Tank can be used with Bio-Fresh CD, a bacteriostat/fungistat in select applications of indoor coils of ductless systems to aid in inhibiting future growth of microorganisms on the internal surfaces. The Turbo Tank is not designed for use with any indoor or outdoor coil cleaner; the use of coil cleaners can damage the sprayer and will void warranty of the sprayer – this includes cleaners/disinfectants such as Nu-Calgon's Evap-Fresh.

4778-0

- Portable rinsing sprayer for use with clean water to rinse coil cleaner off of coil
- Durable sprayer with optimal 130 psi water pressure
- Removable 4.5 gallon water tank
- Supplied with high capacity rechargeable battery, 12VDC vehicle adapter, battery charger, multiple nozzle options, heavy-duty hose/sprayer
- Includes eight inch 90° spray wand for cleaning indoor mini-splits
- Includes adjustable shoulder strap for easy mobility
- Optional AC/DC power converter available (4778-12)
- Available separately - 39 inch length 90° spray wand (4778-11)

CLEAN GUARD™

Professional maintenance bag for wall-mounted and ceiling cassette ductless systems

- For use when cleaning indoor coils with Nu-Calgon cleaners
- Easiest install on the market – installs in seconds!
- Durable braided elastic band with wheel lock adjusts in seconds for a desired fit
- Heavy duty design
- Eight-foot drain line for Clean Guard (XL). The Clean Guard CC uses a 10 foot drain line.
- 360° coverage prevents overspray on wall
- Reusable
