

---

**Lifetime Parts Warranty:** Arzel Zoning is the ONLY zoning manufacturer that backs its products with a lifetime warranty. That means there is no risk in purchasing and installing an Arzel Zoning system. In an industry where reputation is everything, you can rest easy knowing that they are covered by Arzel Zoning's lifetime guarantee.

**100% Comfort Guarantee:** If the customer is unsatisfied within one year with their Arzel Zoning system, Arzel will buy back the system at the original purchase price.

**Easy Installation with Less Mess:** Arzel Zoning systems can be installed in one day with little to no inconvenience or mess to your customer or their homes.

**Universal Compatibility:** Arzel Zoning systems will work with any standard R-W-Y-G 24 volt system and is perfect for all retrofit applications. Your customer doesn't have standard ductwork? No problem! Arzel Zoning offers custom-fit dampers to accommodate most ductwork sizes and configurations. Technicians can offer zoning without the need to tear the house apart, saving time, money, and aggravation.

**Outstanding Tech Support:** Arzel Zoning offers the best technical support in the business. It is offered not only during regular business hours but also after hours when contractors need it most. Call our direct line to get in contact with our technical support specialists today.

**Quiet, Air-Driven Operation:** Arzel Zoning systems feature motor-less, pneumatic or air-driven dampers, which are not only quiet but reliable too.

**1 Day Training Classes:** Arzel Zoning offers one-day Comfort College courses throughout the year at our Headquarters in Cleveland, Ohio. The course features an overview of the zoning industry, why Arzel Zoning systems are far superior to any on the market today, how we can help contractors sell to their customers, and qualifies for 10 NATE credit hours.

**Regional and Virtual Training:** Arzel Zoning offers condensed versions of the one-day Comfort College training at your facility! Short webinars on general sales and product topics are also available, as well as 1-3 hour long NATE and OCILB approved virtual training classes that can be scheduled on your time!

**Innovative Design:** Several Arzel Zoning products have received Dealer Design Awards from the NEWS, including HeatPumPro and Coolmizer.
