The banner features a basketball in the foreground on a wooden court. The background is a blurred basketball arena. The APR Supply Co. logo is overlaid on the left side of the banner.

Can A New Approach To Building Design Improve Indoor Air Quality?

Indoor air quality has always been a bit of a niche subject, even in environmental circles, but over the last few years, a growing number of people have come to realize how vital it is to our wellbeing.

Kevin Smith, general manager of life and device solutions division and visual solutions at Panasonic Canada said the focus on homebuilding over the last 20 years has been around energy efficiency and to “seal buildings up as tightly as possible”.

But Smith said the “biggest issue in design, right now” is improving indoor air quality through improved ventilation systems.

APR Supply Co. Announces Acquisition of Barton Supply

APR Supply Co. is pleased to announce the acquisition of a new branch location in Cherry Hill, New Jersey. Formerly Barton Supply, the location currently serves plumbing, irrigation, drainage, and landscape lighting products. The transition to APR will now add HVAC to the branch's portfolio.

Now at 42 branch locations, APR Supply Co. continues to expand its footprint in southern New Jersey as a fourth generation, family-owned HVAC and plumbing wholesale distributor.

Aging-in-Place Remodeling – A Growth Opportunity

Whenever the economy is uncertain, savvy contractors look for new ways to drive business.

Interest for aging-in-place projects continues to climb. Research has shown that demand for walk-in tubs is growing at double-digit annual rates. Many contractors consider walk-in tubs to be the backbone of their business, and the reason they expect to flourish, even in an uncertain economy.
