

Training at Arzel's Cleveland Lab

Our most comprehensive training is Comfort College®, a day-long training event at our facility in Cleveland, Ohio. It's worth the trip to get hands-on experience in our lab. These topics are included:

- How to sell zoning
- Application design
- System components
- Arzel product overview
- Thermostat options
- Airflow dynamics bypass theory (lab)
- Installation exercise (lab)
- Wiring options and specialty panels
- HeatPumPro® setup and features
- GTPro™ features and benefits
- SDHV zoning and CoolMizer
- Testing dampers, pump, and solenoids
- Warranty
- Marketing support materials

NATE CREDITS: 10

OCILB CREDITS: 10

On-Site Training

We'll come to you! If you have a group that needs training (typically 10-15 people), let's talk about on-site training. You can mix-and-match topics to tailor the class to fit your group. We start with a product overview (45-60 min.) and add the topics of your choice from the list below.

Total class time is a minimum of 2 hours. We also do half-day and full-day classes if you have the time.

Some options below are approved for credit through OCILB and/or NATE. Contact us if you need to ensure your class is eligible for CEUs.

COURSE OPTION	LENGTH (hours)
HeatPumPro zone weighting.....	1
Forced air and hydronics	1
Zone sizing and system adjustments...	1
Bypass theory	1
Arzel CoolMizer®	1
Multi-stage equipment and zoning.....	1
Effective low-voltage testing.....	2
Airflow dynamics and bypass theory	2
Proper zoning system design.....	3
